### CEI Acquires Point Management Group to Expand Capabilities

Pittsburgh, PA (July 10<sup>th</sup>, 2019) - Computer Enterprises, Inc. (CEI) is pleased to announce the acquisition of Point Management Group (PMG) which will expand CEI's consultative capabilities and provide clients end-to-end services to help transform and innovate in high-impact areas. This acquisition brings together a collective 58-year track record of helping global, national and regional enterprises solve strategic and technology challenges to propel their businesses forward.

Founded in 1992, CEI has grown to be a leading, national IT provider helping companies solve their most pressing challenges in order to differentiate and evolve towards the future. CEI's service capabilities span IT advisory services, custom application development, managed services and staffing. A client-first approach combined with a focus on both core and emerging technologies has fostered sustained growth and expansion.

PMG, founded in 1988, is a leading, national business consulting firm helping clients operationalize strategy through leveraging critical elements of business strategy, operational excellence, supply chain optimization and technology enablement. PMG works with clients across those areas to more quickly and efficiently develop strategies and solutions to solve their unique business problems.

"We are excited to continue our expansion of service capabilities as we add differentiated management consulting services powered by PMG" said D. Raja, CEI Chairman and Co-founder. He continued, "PMG has a proven track-record of helping companies across many industries solve difficult problems and our combined capabilities will provide clients with a truly unique solutions-oriented end-to-end ability to transform their businesses." PMG's deep business and operational acumen has delivered value to Fortune 500 clients across a wide cross-section of industries and geographies.

Chris Casturo, PMG Managing Director, stated "We are pleased to become part of the CEI team and to leverage the synergy of our combined capabilities to deliver even more value to clients. The line between business and technology has become virtually non-existent and we'll now be able to advise clients not just on how to leverage technology as a competitive differentiator, but provide them the resources to implement solutions and recommended actions."

About Computer Enterprises, Inc. (CEI):

As a trusted technology partner, CEI delivers solutions that help clients transform their business and achieve meaningful results. From IT strategy and custom application development through application management – our technology and digital experience services are tailored to meet each unique need of our clients.
